StarVision™

Modernize Your Operations for the Digital Age

Eliminate Core Frictions in Payments, Processes, and Systems

The Challenges

Complex Regional Payments

Expanding across China & ASEAN? Traditional cross-border payments can delay cash flow for days, disrupting operations. A complicated checkout experience leads to lost sales.

Slow Development Cycle

Each market has unique needs, but traditional development is too slow and costly to keep pace with evolving demands.

Disconnected Systems

Managing operations across multiple locations with siloed systems results in duplicated data, errors, and slow decision-making.

The StarVision Solution

Unified QR Payment Gateway

Accept QR payments from Singapore, Malaysia, Thailand, and Indonesia through a single gateway. Funds go directly to you—not middlemen, no delays.

Rapid App Development

Empower your team to build and launch custom web and mobile apps in days—not months—using our Low-Code/No-Code platform.

AI-Powered Business Integration

Streamline HR, finance, inventory, and more on a unified AI-driven platform for a real-time, 360° view of your operations.

MecWise® Digital Payment Gateway

Grow Across Borders | 跨境支付网关 – 让中国东盟企业轻松收款

Fast, Secure, Cross-Border Payments for China-ASEAN Business

Why Choose MecWise?

Accept ASEAN QR Payments Seamlessly

Support regional QR payments from:

- Singapore (PayNow)
- Malaysia (DuitNow)
- Thailand (PromptPay)
- Indonesia (QRIS)

Direct Bank Transfers, No Middlemen

Funds are deposited straight into your bank account—no intermediaries, no delays. Improve cash flow and reduce settlement time.

Optimized for Mobile & Real-Time Checkout

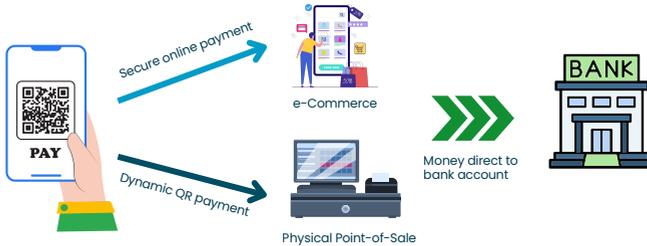

Deliver a smooth, secure, and mobile-friendly payment experience with real-time authorization for your customers.

Expand confidently into the China-ASEAN digital economy—without the banking headaches.

MecWise makes regional payments simple, secure, and scalable.

MecWise® Digital Payment Gateway

Flexible & Secure Technology for Modern Businesses

Two Powerful Modes of Operation

1. QR Code Payment via Terminal

Ideal for physical stores and POS environments. Generate a QR code on your terminal for customers to scan and pay instantly.

2. URL Redirection for Online Payments

Perfect for e-commerce websites and mobile apps. Seamlessly redirect users to a secure payment page for fast, frictionless checkout.

Why MecWise?

Engineered for Flexibility & Security

Supports diverse business models—from retail to digital—with robust integration options.

Bank-Grade Processing

Built with trusted, secure infrastructure and direct API integration with major financial institutions.

Fast, Reliable Transactions

Ensure safe and efficient payment processing with real-time authorization and direct settlement.

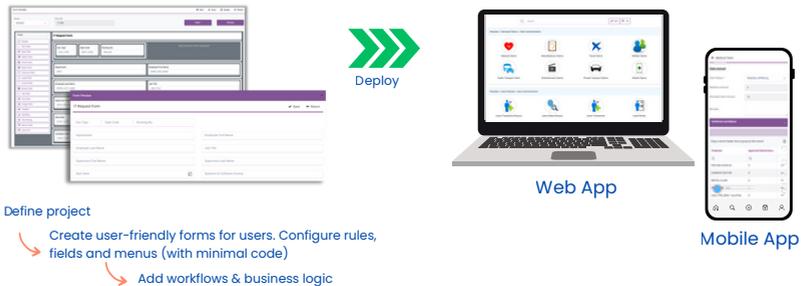

Empower your business with a payment gateway that adapts to your needs—online or offline.
